

# Rhythm—Computer Task

Name \_\_\_\_\_

Class \_\_\_\_\_

- Load your sequencer program. Ask your teacher to help if you don't know what this means.
- Load the file rhythm1.mid into your computer.

You will hear FOUR rhythm parts. Using rhythm dots, write down what you hear on each track in the grid below

HINT : Try listening to one track at a time and MUTING the others.

	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4
Track 1 (tom tom)																
Track 2 (guiro)																
Track 3 (woodblock)																
Track 4 (tambourine)																

Finished? Check your answers with your teacher who should have an answer sheet.

Now create your own rhythm dot piece using the grid below. You will need to start a NEW file to do this and make sure the channels on your sequencer are set to drum sounds (Midi channel 10). There are seven channels in the grid in case you need to use them. If you don't know how many to use, ask your teacher.

	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4
Track 1																
Track 2																
Track 3																
Track 4																
Track 5																
Track 6																
Track 7
